BFP TACTICS BOARD PRO „PLAYMAKER“ (90 X 120 CM)

Developed by Andreas Schumacher (UEFA A Licence Trainer & Master of Sports Science - Competitive Sports) for professional players and performance centres. Interesting for all ambitious coaches.

As a coach, precision and small details are also important in tactics discussions. The new BFP tactics board PRO „SPIELMACHER“ offers exactly that: a true-to-scale playing field and optionally available magnets in 10mm ensure a never-before-seen precision when working on the tactics board.

The special feature are the dimensions of the playing field: according to the rules, the international playing field dimensions are 105 x 68 metres - the playing field on the tactics board is exactly 105 x 68 centimetres. Likewise, all other lines, such as the 5-metre area, the 16-metre area, the centre line with the centre circle and the width of the goal are shown in exact scale. To enable even better spatial orientation, the thirds of the pitch are also integrated via horizontal stripes and five longitudinal tracks.

This gives the players a realistic image of distances and spaces as well as passing and running routes.

In this way, precise training forms can be derived and created from game situations. For the first time, this board enables a high recognition from theory to practice and vice versa.

To ensure precision in the representation of players, we recommend the use of 10mm TOP COACH round magnets.

BFP ANGLE MAGNETS, SET OF 11

Our BFP angle magnets are ideal for showing the open playing position and the line of sight on the tactics board!

What is not possible with normal round magnets, the football coach can easily explain and show to his players with the angle magnets (patent protected): Open playing position on the outside or in the centre, line of sight, first contact and connecting action, play into the right (red) or left foot (green), correct starting and behaviour in pressing and standard situations.

Size: diameter of the circle 20 mm, length of one leg 22 mm, width of one leg 6 mm.

1000615288
€ 10,95

REACTION BELT

2 large adjustable nylon belts with snap fasteners, to each of which an approx. 1.50 m long nylon belt is attached. The belts are connected by a Velcro fastener which tears open when a certain tensile force is applied. In partner exercises, one partner must now follow the movements of the other without letting the strap break. Perfect for coaching speed of reaction and agility.

1000615286
€ 4,95

ALU FOLDING GOAL PRO

The practical mobile folding mini goal (145 x 90 x 72 cm) is ideal for party games on four small goals and in small fields!

The goal frame has a round profile of approx. 38 mm diameter. The net hoops are foldable, therefore convenient to transport.

With three steps, assembly is super easy and quick. The goal is light (6.5 kg) and robust, thus promising a long service life with appropriate use.
